DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 22-23 are rejected under 35 U.S.C. 102(b) as being anticipated by French.

French (4,745,952) discloses a system for transporting tank containers, the system comprising: a) a vehicle car having a first end and a second end; b) first deck slot pedestal means affixed to the floor of the first end of said railroad car; c) second deck slot pedestal means affixed to the floor said railroad car and spaced apart from said first deck slot pedestal means; d) end stop means (Figure 2) affixed to the floor of the first end of said vehicle car; e) a first bracket connected to said first deck slot pedestal means, said first bracket being constrained from lateral motion by said end stop means; and, f) a second bracket connected to said second deck slot pedestal means. Said first deck slot pedestal means is connected to said first bracket by twist lock connectors which constitute the end stop means.

Allowable Subject Matter

3. Claims 1-6, 11-20, 24-31 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 22-23 have been considered but are moot in view of the new ground(s) of rejection.
